DR. ARTHUR WAITE CUTS HIMSELF WITH BROKEN GLASS Prisoner Was Found Bleeding Fron a Wound in His Chest.

Sing Sing Prison, N. Y., July 25.-Dr. Arthur Warren Waite, awaiting plectrocution here for the murder of his father-in-law, John E. The prisoner had cut himself with a piece of the breed of the control of the co broken glass.

How Walte got possession of the class could not be explained. It is presumed that when he was taken out for exercise in the courtyard he pick-ed it up when the vigilance of his guard was relaxed and concealed it until he returned to his ceil.

Walte was removed to the prison hospital, but he steadfastly declined to answer questions. The prison au-thorities believe if he had intended to kill himself he would have inflict-ed the wound elsewhere than on his chest. The injury is not serious.
